Nature Explorers Survey!

Hi there, nature explorers! We're planning some fun activities to learn about the plants and animals around us, and we'd love your help! Tell us a little about what you already know and what you'd like to do.

Do you like spending time outside? (Yes! / Kind of / Not really)

What's your favourite thing about nature? (e.g., trees, flowers, bugs, animals, clouds, etc.)

Have you ever seen any cool plants or animals in your neighbourhood or a park?

(Yes / No)

If yes, what did you see? (Draw a picture or write the name if you know it!)

What's your favourite animal? (Draw a picture or write the name!)

What's your favourite colour flower? (Draw a picture or write the name if you know it!)

Would you like to go on nature walks? (Yes! / Maybe / No thanks)

Would you like to plant flowers or vegetables? (Yes! / Maybe / No thanks)

Would you like to learn about bugs and insects? (Yes! / Maybe / No thanks)

Is there anything else you'd like to do in our nature project? (Tell us your ideas!)

Thank you for helping us!
